

## Math Puzzles & Games

(Level 6 to 8)

Inter house competition – Math Puzzles and Games level 6 to 8 was held at India International School, Mansarover, Jaipur on 19<sup>th</sup> September 2017. The Competition of 4 rounds.

Round 1 with 12 puzzles based on Investigating Patterns & basic concepts of math.

Round 2 with 02 puzzles based on geometry

Round 3 was a Math Game – solving a linear Equation Sudoku. Which was a unique one.

Round 4 was a Rapid Fire Visual Round with 8 Questions on general maths.

Four teams (CODT) with 02 students from each House participated. Both members of each team worked together to arrive to the right answers. The participants showed great interest and thoroughly enjoyed being completely immersed in a world of mathematics. This enriching activity led to sharpening mathematical skills in students and promoting maths at IIS.

Daffodils stood first with Asmi Jain (8 A) and Parthivi Jain (8C) declared as the “Math Champions”.
