

## Re-connect

### Alumni 2003 batch interact with IISians

The reconnection between the alumni and the IISians took place on 15 July 2017 in the school auditorium. A fraternal cord was instantly struck, old memories revived, past experiences shared. The alumni motivated and satiated the queries of students giving them guidelines and a reassurance no matter where and when they'll always be accessible. The old ties were strengthened, activating the IIS networking. Mr. Saurabh Dutt, MHA, Govt. of India motivated the IISians grade 12. He advised them to not procrastinate but believe in the "do and die" ideology. Mr. Akash Bang, the Event Organizer "Spectrum" highlighted on the nitty gritty of event management.

There were however a few alumni who could not make it, but they messaged paying their homage to their Alma Mater.

Mr. Dennis Verma, an engineer and consultant in US based company Deloitte was full of wit and humour and brought life to the auditorium.
