

International Buzz

The IIS campus turned into an International buzz during the 3rd Chapter of IISMUN'18 when 190 delegates thronged from every nook and corner of the world adorning the diplomat's hat to debate on International issues making every individual realise his responsibility towards the world. This was scheduled on 7th-8th May from 7.30-2.15p.m. The four committees namely UNSC, UNDISEC, UNCSW, AIPPM with the International Press did full justice debating and voicing their opinion, coming out with counter points magnetising the ambience of the committee to such an extent that many of the reporters were so agluttanated with the debate only to realise they could only do justice to their profession to find time, compose themselves and write. They were flooded with news, photographs, videos, caricatures. Hats off to the IP team for immortalising this event.
