

## IISMUN- JUNIOR- CHAPTER 1

On the occasion of UN Day, the School's Model United Nations team of the international curriculum proudly hosted its first chapter of middle school Model United Nations Conference, IISMUN JUNIOR , instituted to enhance various skills in students like public speaking, debate, diplomacy, problem-solving, persuasive writing, and teamwork. Nearly sixty students participated in this conference, participating in committees with topics of gravity and global importance such as Article 370 and Yemen Crisis analyzing, evaluating and contributing their share.

The conference officially started with the opening ceremony. The middle school students quickly gained confidence while learning the basics of Parliamentary Procedure, Resolution and Position Paper Writing, and Public Speaking. There was a noticeable change in the students' demeanor as they opened debate. Shedding their laid back attitudes and instead donning a professional and serious manner, they transformed into delegates. The awards presented in closing ceremonies were well deserved.

At this conference, the students learned about the importance of coming together to achieve a common goal in the true spirit of the United Nations. The MUN team members modeled the importance of diplomacy creating an atmosphere not of individual competition, but of group understanding and overall improvement.
