

TREE PLANTATION

To exist as a nation, to prosper as a state, to live as a people, we must have trees. -Theodore Roosevelt

India International School, Sitapura organized a Tree Plantation Drive where more than 150 trees were planted in the campus, by the teaching, non-teaching and the support staff.

What is it about trees that resonate so deeply with us? Is it their enduring presence despite the chaos going on around them? Their ability to bring to life where once there was only soil? That our very survival is intricately linked to nature?

We can learn a huge lot from trees both in professional and personal life. The trees show us that in order to aspire, we need to be grounded and that no matter how high we go, it is from our roots that we draw sustenance

The trees now also carry the name of the staff, who planted it, along with its scientific name. The staff also pledged and took responsibility to take care of the trees they have planted, with love and care.

The true meaning of life is to plant trees, under whose shade you do not expect to sit.
