

WORLD HERITAGE DAY

Heritage of a country is its richest wealth and treasure reminding one of the rich culture. Preservation of heritage sites is the utmost duty and responsibility of not only citizens of a country but also the visiting tourists. In the same concern, every year 18th April is celebrated as World Heritage Day. The students of IGCSE YEAR-1 of India international School, Mansarovar showcased a play in school assembly to enlighten the students about the importance of heritage sites but also to urge them to work together to preserve the same not only locally but also globally. The motive was to create awareness for conserving the heritage sites and to stop people from spoiling these sites. During their play, characters realized and admitted their mistake and promised to never repeat again thereby giving message to everyone to preserve the same. This small effort on students' part left a deep impression on the minds of the audience.
