About India Development Coalition of America

IDCA is a not-for-profit organization registered in the state of Illinois since 2004 and has been engaged in promoting sustainable development in India to eradicate poverty and minimize damage to our environment. IDCA promotes networking, collaboration, learning, giving, and volunteering both in US and India to support member and partner organizations. To this effect IDCA has been bringing NPOs/NGOs and concerned members of community in Annual Regional and International conferences both in India and the US and regular monthly seminars in Chicago.

About The Conference

The conference aims to promote networking, collaboration, learning, giving, sharing and volunteering to achieve goals individually and collectively in shortest possible time to help eradicate poverty and mitigate climate change in India. The conference will focus on sessions on Water, Education, Livelihoods, Healthcare and climate change Mitigation.

Conference Schedule

Technical Sessions

Innovative Practices for Water Management

The main objective of this session is to create a forum for discussion on clean water, wastewater, recycling and reuse, sensing and monitoring, and watershed management. The session aims to bring together pioneering researchers, innovators and practitioners who have made impact in diverse areas around water, to learn from them, to engage with them in the years ahead.

Innovative Practices in Climate Change

Climate change is making its presence slowly but surely and it has the potential to affect many in a big way in India. This session is envisaged on developing solutions to climate change. It will provide an opportunity to participants to join the community working at the forefront of innovations that reduce the impacts of climate change by restoring our ecosystems, by enabling adaptation of our built infrastructure and societies or by dramatically reducing the trajectory of causative factors.

Innovative Practices for sustainable Livelihood

Livelihood is the means through which an individual secures basic necessities like water, food, shelter, work, education, etc. By improving livelihood, the standard of a society can be transformed to the next better level. The technical session aims to provide platform to various NGO leaders, civil society organizations, social enterprises & CBOs to share their innovative practices for livelihood that they are employing for betterment of community.

Innovative Practices for Health Management

The International Conference aims to bring together leading academic experts, researchers, NGOs to exchange and share their experiences on all aspects of Health Management. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Health Management. The Technical Session will look at opportunities, best practices and innovations for continuously evolving health systems.

Innovative Practices in Education

This technical session focuses on the different approaches of India in speeding-up education spectrum to eradicate poverty. The speakers will share the education practices that helps to improve the quality of education outcome in relevance to poverty elimination. It will provide an interactive forum for the NGOs, Corporate representatives in sharing and finding innovative solutions for developing a holistic approach towards social responsibility, and combining education and business for social initiatives.
