IIIM

INTERNATIONAL SCHOOL OF INFORMATICS & MANAGEMENT
(Formerly India International Institute of Management)
Accredited 'A' by NAAC
Ranked 1st in category 'A' By Rajasthan Technical University, Kota

Placement Brochure-2024

MCA

Vision

To be globally responsive and socially conscious, committed to innovation and creativity by developing and disseminating knowledge and practice for learning and resource use optimization. And to emerge as an organization with an optimal blend of value based growth and future preparedness, leading to prosperity of the society and nation at large.

Mission

"We stand committed with a spirit of enterprise, will to succeed, zeal to grow and objective-achievement orientation through value based education for community at large by creating an environment of intellectual stimulus, scientific orientation and social responsibility".

Goals

To develop a comprehensive world view in the students with respect for all forms of life and foster an environment where people work together and are motivated to succeed.

To inculcate the zeal for individual excellence and yet reinforce the importance of team work.

To support a proper harnessing of latent talents and to encourage the students to take initiatives.

To provide an environment, in which the students and the faculty are driven by the spirit of enquiry in their quest for knowledge.

To Enhance logical, creative and analytical skills.

An Invitation

Dear Technocrats,

Good Technocrats are not born, they are made. They are groomed by experiences & exposure to day-to-day realities of the work place. They grow in skills and knowledge through their interactions and encounters with the challenging work environment that poses problems with multiple decision situations. The threats & opportunities posed by real life work situations equip them with the know-how that no notes & theories contained in the text books can ever teach. However to prepare the future technocrats to make the most of the business world, it is essential to impart them with the attitude to learn & grow all their life.

Today's children are the first generation of the "digital age." They are being raised in a society that is changing rapidly as a result of the influx of new computer-based technologies that provide more pervasive and faster worldwide links to commerce, communication, and culture. The dramatic changes over the past decade have prompted the education system to prepare all students to use technology in ways that allows them to compete in the increasingly complex technological workplace. At IIIM we work assiduously to train and educate our students by integrating computer-based technologies into the classroom teaching in an innovative & unique manner that cultivates the spirit of inquiry & openness to learning long after they, ceased to be students in the academic sense. The students at IIIM gain knowledge to think both functionally & systematically & learn to deal with both the tangible & intangible aspects of varied business conditions.

The campus has fostered an environment that nurtures excellence in all undertakings including class room learnings, real time projects with corporate, consultancy & research initiatives, publications & other pioneering activities, which differentiate IIIM, from other technical institutes. The increasing competition presents both greater challenges and greater opportunities. To remain competitive in an increasingly interconnected world we ensure that the curriculum and laboratory facilities equip students for the jobs of tomorrow.

IIIM is ready to present something new to the students; something challenging and motivating; something within the framework of the students' own experience; and, perhaps most important, something students can succeed at with a positive learning experience. Our students achieve true excellence by striving to get ahead of themselves & not others. They are taught to become better by working harder, being smarter & more committed. Our students' population is high achieving, entrepreneurial, and spirited.

Our MCA students have secured prestigious placements with organizations of repute like TCS, Infosys, IBM, Pratham Software, Appcino Technologies, Thrillophilia Travel Experiences, S&P Global Market Intelligence, Metacube Software Pvt. Ltd., Fujitsu Global, Accenture Services Pvt. Ltd., to name a few, and have achieved the highest level of professional success.

Best Wishes

Dr. Ashok Gupta
Chairperson

About MCA

The two-year full time programme approved by AICTE leads to MCA degree awarded by the Rajasthan Technical University, Kota. The programme endeavors to impart quality education to the students and imbibes in them an ability to understand and assimilate all new ideas and innovations taking place in the rapidly evolving technology sector.

The curriculum is as per the University specifications and is updated from time to time to incorporate the latest developments and changes taking place in the IT industry. The contents are adapted to enable the learners to handle the demands of the industry effectively and successfully. The programme endeavors to impart quality education to the students and imbibes in them an ability to understand and assimilate all new ideas and innovations taking place in the rapidly evolving technology sector.

The MCA programme is designed to:

- enhance logical, creative and analytical skills.
- inculcate the zeal for individual excellence yet reinforce the importance of teamwork.
- foster the spirit of inquiry to keep the students updated of the changing technology.
- strengthen the sprit of application of knowledge towards national growth.
- develop the ability to utilize the full potential of human resources.

The programme provides the students a deep insight into programming techniques like Structured and Object Oriented methods along with data structures and algorithms, developing Web Applications, DBMS and RDBMS concepts. The students are imparted comprehensive knowledge of networking and data communications, Big data and Data Analytics, Artificial Intelligence, and Mobile Application Development.

The MCA Programme aims at enhancing quality technical education by striking a good balance between academic work and the rest of life. The entire learning process is focused on inculcating a habit of independent thinking and communicating ideas without hesitation so as to groom competent IT professionals and enthusiastic entrepreneurs with a global mindset and a strong foundation of core human values.

Programme Structure

- The two years of the MCA programme are divided into four semesters. The first three semesters for theoretical and practical papers with summer internship and the fourth semester includes elective papers along with industrial training.

- Students are required to study a total of 20 subjects during the four semesters, including one elective in third and one elective in fourth semester.

- To enrich students knowledge three labs are designed in each of the initial three semesters and an Industrial Project in the final, fourth semester. The labs include Object Oriented Programming Lab, PL/SQL Lab, Python Programming Lab, Mobile Application Development Lab, summer internship etc. which are synergistic and integrative in nature.

- The MCA Programme offers two elective Papers. The first elective paper is a choice between Data Mining and Warehousing, Big Data Technologies and Soft Computing. The second elective paper is to be chosen from Principles of Management and Information System, Machine Learning, and Data Science with R.

- Students are required to opt for any one from the electives offered during their third (Elective-I) and fourth (Elective II) semesters.

- The Summer Industrial Training (Third Semester) and Industrial Training (Fourth Semester) preferably with reputed organizations is mandatory for the aspiring technocrats. It is imperative to have hands-on experience, therefore students need to undertake these trainings to hone their IT skills.

The Curriculum

MCA YEAR 1
Semester I
MCA-101 Mathematical Foundations in Computer Science
MCA-102 Object Oriented Programming with C++
MCA-103 Operating System
MCA -104 Computer Architecture
MCA-105 Database Systems
MCA-106 Web Technologies

Practicals
MCA-151 Object Oriented Programming Lab
MCA-152 SQL-PL/SQL Lab
MCA-153 Web Technologies Lab
SODECA

Semester II
MCA-201   Java Technologies
MCA-202   Computer Networks
MCA-203 Data Structures
MCA-204 Software Engineering & UML
MCA-205 Python Programming
MCA-206 Business Informatics

Practicals
MCA-251 Data Structures Lab
MCA-252 Java Technologies Lab
MCA-253 Python Programming Lab
SODECA

MCA YEAR 2
Semester III
MCA-301 Cloud Computing
MCA-302 Analysis and Design of Algorithm
MCA-303 Artificial Intelligence
MCA-304 Information Security
MCA-305 Mobile Application Development
MCA-306 Elective 1*

Practicals
MCA-351 ADA Lab
MCA-352 Mobile Application Development Lab
MCA-353 Summer Industrial Training Presentation
SODECA

Elective -1*
MCA-306- 1 (a) Data Mining and Warehousing
MCA-306-1 (b) Big Data Technologies
MCA-306 1 (c) Soft Computing

Semester IV
MCA-401 Software Project Management
MCA-402 Elective 2*
Practical
MCA-451 Industrial Project
SODECA

Elective 2*
MCA-402-2(a) Principles of Management and Information System
MCA-402-2(b) Machine Learning
MCA-402-2(c) Data Science with R

Our Software Development Experience

Procure 360

Procure 360 ensures an end to end transparent procurement process. This system starts from the creation of procurement requests, its approval, request for proposals, selections & suppliers on boarding, purchase order creation, delivery tracking, invoicing and finally maintaining information on all procured assets / services. It extends the budgeting module to ensure everything is in accordance with the defined budget.

Data Integration System

Data Integration System is used to retrieve files from the directory provided by the client which is in the form of Orders or Invoices. The directory can be of any type like a disk directory, FTP Server, or AWS S3 bucket which can be accessed using connectors like disk, FTP, Amazon S3 bucket connector, etc. After retrieval, operations or manipulations can be performed on data as per requirements and instructions provided via a mapping sheet and direct the data to the destination directory provided by the client.

Connect iPaas

Connect iPaaS is a platform that provides a modern, no-code, intuitive user experience (UX) for API and integrates data with SaaS on premise and cloud services, which includes Microsoft Dynamics 365, ServiceNow, Workday, ADP, Salesforce and other leading CRM, Finance, Sales and Enterprise Resource Planning (ERP) applications.

Social Sentiments Analysis System

Social Setiments Analysis System collects the comments from different social platforms and analyzes the sentiments behind those comments in a text format. The system provides excellent visual reports which describe the peoples sentiments on any particular issue.

WellBux App

This application offers thousands of deals from local stores to buy anything. It covers restaurants, hotels, groceries and clothing stores. WellBux provides facility for users to create teams, allows them to make friends, to earn points by joining challenges and have a facility to search nearby stores.

Smart CCTV System

Smart CCTV system is a Python based GUI application which can run on any operating system. The system uses webcam and has Anti-thief, Noise Detection, Visitors Counting, Normal Recording and Face Identification properties which is different from normal CCTV application.

e-Spices

e-Spices(e- Commerce Website) helps to buy all types of dry fruits, spices and seeds. It is a multilingual website designed in three languages namely English, French and Dutch for customer convenience. The customers can view all products under various categories and can buy any product. Customers can choose payment method according to their convenience.

Library Management System(LibMS)

LibMS is a website that manages and stores books information electronically according to needs of the students. The system helps both students and library manager to keep a constant track of all the books available in the library. It allows both the admin and the student to search for the desired book. It keeps a continuous check on the books issued and returned and even calculates fine.

Competitive Pricing and Delivery Person Application

The system compares the prices of number of products on different e-commerce platforms. It describes the product details and price and their features at one place.

Email/SMS Spam Classifier

Email/SMS Spam Classifier efficiently and correctly flags the incoming spam mails. It is a real-time email spam classifier which finds the spam mails that cause great risk to security, such as fraudulent e-mails, identify theft, hacking, viruses, and malware.

Real Estate Housing Price Predictor

This application analyzes metadata from various resources and predicts the price of real estate accurately by using data science applications.

Computing Facilities

The Computer Labs are accessible round the clock and are equipped with state-of-the art hardware and software. The computing facilities include 45 Mbps Leased Line and the network is configured with UTP CAT 5e structured cabling with switches that provide bandwidth of 100 Mbps to each workstation. The institute also has a Hardware Lab equipped with the latest components to meet the curricular requirements. The Microsoft Academic Alliance facilitates continuous updation of Microsoft Software on new releases.

Resources
- Microsoft Academic Alliance Program (DreamSpark)
- Development Tools
- Turbo C++, JDK 1.6.1, Oracle 9i
- Microsoft Office 13/16
- Tomcat, Wamp Server, Wireless Tool Kit (WTK)
- Scilab, OMNeT++

Operating Systems
- Windows 95/98/XP/2000 Professional/2003 Server Edition/7/10
- RedHat Enterprise Linux, Unix, IBM AIX, SUSE Linux

Security Tools
- Microsoft Security Essentials

Hardware
- Intel I5 12th gen 16GB 512GB HDD
- Laptops and Apple Machine
- Intel C2D Series with 2 GB RAM, 160 GB HDD
- Intel I3, 4GB RAM, 500 GB HDD

- IBM XEON 226 Series Server
- Cisco 2100 Series Wireless LAN Controller
- Cisco Access Points
- Microsoft IIS Server
- LCD Projectors
- Laser Printers - B&W & Color
- Laser Printers connected via LAN, Centralized Printing Facility in whole campus
- Microprocessor Laboratory

Internet Connection
- All the labs, offices and faculty rooms are connected to the internet through the campus intranet.
- Internet connectivity is provided using switches through the campus intranet. 24/16 port switch is used in LAN, providing internet to all systems in the laboratory, classrooms, board room and seminar hall.
- Wi-Fi connectivity through 10 access points at each floor, offices and the staff rooms.

The software tools acquired to allow students to gain practical experience. The following is a list of some of these tools:

Operating Systems
- IBM AIX
- UNIX
- RedHat Enterprise Linux (RHEL 5.0)
- Windows 2003 Server Edition
- Windows XP

Programming Platforms
- Turbo C++
- Visual Studio Enterprise 6.0
- Language Compiler
- JDK 1.6.0
- Python
- PHP
- Tomcat

Database Management Systems
- Oracle 9i
- MySQL

- MS-SQL 2005 Server
- IBM Db2

Mathematical and Statistical Packages
- SCILAB
- SPSS
- EPI-INFO
- Mathematica

Graphical Packages
- Auto CAD 13.0
- Author ware Pro
- Macromedia Flash

Application Packages
- MS Office 2000/XP/2003
- Adobe Acrobat 9 Pro
- CorelDRAW 2018
- Adobe PageMaker 7.0

- Adobe Photoshop Cs5
- Adobe Creative Cloud

Other Packages
- Micrografx Flowcharter
- Mastering MFC development
- Windows Exchange Server
- Humming Bird PC Exceed Server
- IBM Tivoli
- IBM LOTUS
- IBM RAD
- MSDN Library
- Tally

Services provided by college to all staff members and students:
- Website, E-mail services, Online applications, Data sharing over the LAN, Intranet
- 24 hours Internet access
- Antivirus and Spam protection

Placement Process

Final Placements are the end towards which the programme is directed. At IIIM, placement is considered a very strategic activity. The Institute's Training & Placement Cell comprising faculty and student representatives, organises activities and events all round the year to attract corporate houses of repute to the campus. The Placement Committee of the Institute also has eminent representatives from industry and academia.

IIIM always adheres to an employer-centered procedure for campus placement. It understands and respects the needs and expectations of the industry in its attempt to secure good placement for the students. Consistent efforts are made round the year to groom students accordingly.

Campus recruitment at IIIM offers the organizations a wide choice of candidates and provides a platform for industry-institute interaction. The placement process of the Institute is fairly simple. Companies desirous of conducting on-campus recruitment are requested to organise pre-placement talk followed by a suitable selection process. The Placement Cell of the institute facilitates the selection process by sending across detailed curriculum-vitae of short-listed candidates on receiving such a demand.

Many organisations express a desire to interview short-listed candidates at their own location. In such a situation, the short-listed candidates are granted leave to appear for interaction at the location specified by the concerned organisation.
