

15<sup>th</sup> April, 2025

Dear Parents,

Grade XII, the last year of school is an extremely important year for students.....for some it is a special year, for some a stressful year and for some a very hectic and busy year.

However, it is upto us as mentors to help our students go through the rigours of this year as smoothly as possible. The Principal met the students on 9<sup>th</sup> April, 2025 for a session to help achieve this, explaining to the students that the key this year would be to strike a balance-between preparing for board exams and for various entrance tests.

She further encouraged students to believe in themselves, stay confident and focussed because each one of them has the potential to achieve their targets.

A small setback in class XI, if they had to write a supplementary exam, should be taken as a learning experience of the need to work harder.....and of course the teachers and the school are always there to help out.

The Principal once again emphasized that this year will finally shape their future and it is time to give it their best.

Finally, the students were asked to share any concerns or issues that they had.

These were noted by the Principal, to be resolved in the best possible way...

Wishing all the students All The Best!

**Regards**
