

18th September, 2026

Mandatory Resubmission of Application for Mobile Device Facility (Classes 11 & 12)

Dear Parents,

As we commence Term 2, **the school remains committed to ensuring a focused learning environment and preventing the misuse of mobile phones on campus.** Please note the mandatory requirements regarding student mobile device access:

- The facility to bring mobile devices to school is strictly limited to students of Grades 11 and 12, primarily to accommodate their early departure schedules.
- For administrative records and verification, all parents must submit a fresh email request authorizing their ward to carry a mobile device to school. Please mention the Mobile Number in the application.
- **The email must include the signed parent undertaking provided below.**
- **Please note that the school is not liable for devices that are not deposited at the reception and are subsequently confiscated for rule violations.**
- The request application along with the undertaking must be emailed by 12:00 noon of Saturday, 19th September, 2026. Failure to submit this by the deadline will result in revocation of this facility given to your ward, effective Tuesday, 22nd September, 2026.

We appreciate your continued partnership and cooperation in helping us maintain an environment dedicated to academic excellence and discipline.

Warm regards,

Nidhi Mishra
Principal

Parent Undertaking

I hereby acknowledge that my ward is required to deposit their mobile device at the school reception without fail immediately upon arrival and before attending classes. If my ward is found in possession of or using a mobile phone during their school hours, the school reserves the right to confiscate the device for the remainder of the 2026-27 academic session. I agree that I will not request the early return of the confiscated device under any circumstances.
