AMBASSADORS ON CAMPUS

The IIS Alumni Council initiated its maiden venture of conducting an interactive session with the bigwigs in the entrepreneurial world to share the experiences, their highs and lows and what makes them goal oriented. The three speakers were Mr Rohit Verma, the Director Dev milk foods Private Limited, Ms. Aarushi Kilawat, a fashion designer specialised in print Textiles and fashion styling from Nottingham Trent University, UK and Manu Sharma with his startup of 'Gladful'. The Moderator for the day was the Treasurer 2012 Batch Abhi Gupta. The IISians got an insight into the lives of these entrepreneurs. The question answer session was informative and encouraging for the students. The students also unleashed their inhibitions and threw an array of questions at the guests. Startups and Entrepreneurship is the hot plate in the business world. It was a proud moment for IIS, as all the guests were the Alumni. Congratulations to The Council on their first successful venture. We sincerely hope this series of 'Ambassadors On Campus' gives our students ample of exposure and internships in times to come
