

# SCALING NEW HORIZONS AS IIS TURNS 36

# SCALING NEW HORIZONS AS IIS TURNS 36

July 16, 2025 witnessed a new scenario at the IIS Campus as the IIS Network fraternity was caught in a dilemma between the joy of legacy and the ache of absence. Absence of the very architect who laid brick by brick the very foundation and groomed and nurtured it with a focused vision and integrity turning it into a mammoth empire named IIS Network. This red letter day marked the 36<sup>th</sup> Foundation for IIS and the 31<sup>st</sup> Foundation for IISU. A congregation of educationist, well-wishers, alumni, family and friends graced the occasion to pay their tribute to the God Father of education, Dr. Ashok Gupta Sir.

The occasion was not just a celebration, but a rededication – to uphold the spirit, the standard, and the service envisioned by the Patron, Dr. Ashok Gupta Sir. The Co- Founder Ms. Vijaya Gupta, the Chairperson Mr. Amit Gupta and the Co-Chair person Mr. Sumit Gupta welcomed the guests and offered mementos as a token of appreciation. This was followed by a short cultural cum musical tribute with a difference.

However, this was not all, for the second segment of the tribute was the release of a music composition composed by the music teachers of around 40 CBSE schools of Jaipur under the guidance and mentorship of the renowned musician Pt. Vishwa Mohan Bhatt Ji. This was sponsored by the Chairperson Mr. Amit Gupta in a joint effort by “Saanjhi,” and The Jaipur History Festival, with the annual theme “Mental Health and Well Being” in a musical therapy session attended by the CBSE officials and School Principals. This composition has compatible diverse short musical pieces to suit different moods of students. These short melodious pieces will replace the electronic school bell, breaking the tedious monotony of the repetitive rhythm. In line with this, The Centre for Happiness – IISU launched their Happiness programme for schools. The student fraternity looks forward to this innovative venture.

Where the senior IISians were the audience, the juniors immersed themselves in harnessing their creativity in art & craft and literary activities. It was a productive day that helped students build their social and communicative skills.
