

NEW AT IIS !!

India International School proudly introduced its **CHESS ACADEMY** on 16th September 2025 for students of Grade 3 to 11. The Chess academy has been initiated at IIS with the objective of nurturing logical thinking, concentration, and strategic skills among students through the game of chess.

The initiative has been warmly welcomed by the school community, as chess is known to enhance problem-solving abilities and foster cognitive development. Under the guidance of a trained instructor, the academy aims to provide structured training sessions, competitive opportunities and avenues to develop analytical thinking in students. This step reaffirms the school's commitment to holistic education by promoting both academic excellence and co-curricular growth.
