

Visit to Jantar Mantar & Birla Planetarium

The Heritage Club and Yuva Tourism Club of IIS for the first time organised an educational visit for students of Grades 8, 9 and 11 to Jantar Mantar and Birla Planetarium on 20th September 2025. Students explored the historic Sun Dial and understood its scientific accuracy and relevance even in today's times. The visit to the Planetarium further deepened their interest in astronomy and scientific exploration, making the day both enriching and inspiring.
