The Future Looks Bright

Newsletter September 2025

Mr. Amit Gupta

Chairperson

Dear Students

The conclusion of the first Term offers you a moment to reflect and rejuvenate. As you take pride in your achievements and learn from the challenges faced, let this be the foundation for even greater progress. With **dedication, discipline, and resilience**, the months ahead will surely lead you to excellence.

DIRECTOR'S MESSAGE

Mr. Sumit Gupta

Director & Co-Chairperson

Dear Students

This month holds special significance as it reminds us of the power of knowledge in shaping lives. As you continue your academic journey, remember that learning does not end in the classroom—it lives in **your actions, your choices, and your attitude** towards challenges.

Ms. Nidhi Mishra

Principal

Dear Students

You've crossed the first milestone of the year—**well done!** Celebrate how far you've come, but, also stay hungry for growth. Keep working with focus and passion, and the second half of the year will bring even bigger victories.

Ms. Mukta Khandelwal

DPC, IIS (World School)

Dear Students

With the first semester behind us, it is time to reflect on your progress and prepare for the journey ahead. Celebrate your achievements, learn from your challenges, and stay focused on your goals. Remember, consistency and effort will carry you to greater success in the coming months.

Honouring The Guru

Teachers' Day was celebrated with great enthusiasm in our school on 5th September. The students welcomed their teachers warmly, greeting them with a tilak and presenting them with badges as a token of respect and gratitude. The atmosphere was filled with joy and appreciation as students expressed their love and admiration for their mentors.

Later, a get-together was organized in the school auditorium for all the teachers.

Teachers paid tribute to Dr. Ashok Gupta Sir who though is not present with us physically, lives on in each one of us through the values he instilled in us. Mr. Sumit Gupta, Director, addressed the gathering, expressing heartfelt thanks to the teachers for their dedication, hard work, and invaluable contribution in shaping the students' futures. The event concluded with light refreshments and cheerful interactions, making the day memorable for everyone.

Nest Building, Integrating Science with Language

A creative Nest-Building Activity was organized for petals of CPP4 on September 4, 2025 as part of an Interdisciplinary initiative integrating Hindi with Science. The primary objective of this activity was to deepen students' understanding of the meticulous effort birds invest in constructing their nests and to highlight the vital role nests play in their survival and well-being.

Through this hands-on learning experience, students not only explored scientific concepts related to birds and their habitats but also enhanced their language skills by expressing their observations. The activity fostered curiosity, creativity, and environmental awareness, while encouraging students to appreciate the harmony between nature and learning.

Best of Waste

Engaging Little Scholars During World Literacy Day

Students of the Primary Wing showcased their creativity in a 'Bookmark-Making Activity' using waste greeting cards and recyclable materials. They beautifully decorated the bookmarks and wrote inspiring quotes on them. This hands-on activity is not only encouraged reusing and recycling but also promoted a love for reading. It was a fun and an eco-friendly way to engage students but instills the importance of sustainability and creativity.

हिन्दी दिवस

विद्यार्थियों को हिंदी दिवस की महत्ता बताने एवं हिंदी भाषा के प्रति जागरूक करने हेतु इंडिया इंटरनेशनल स्कूल एवं आई.आई.एस. वर्ल्ड स्कूल में दिनांक 13.09.2025 को 'हिंदी दिवस' मनाया गया। इसके अंतर्गत कक्षा १ से ५ तक के विद्यार्थियों हेतु विभिन्न हिंदी गतिविधियों का आयोजन किया गया। कवि सम्मेलन, प्रश्नोत्तरी, शुभकामना संदेश कार्ड बनाना, बुकमार्क, शब्द सीढ़ी एवं हिंदी गिनती से जुड़े खेल, पोस्टर बनाना जैसी गतिविधियों के साथ कुछ कक्षाओं में कहानी दिखाई गई। विद्यार्थियों ने उत्साह पूर्वक इन सभी गतिविधियों में हिस्सा लिया। शिक्षकों द्वारा विद्यार्थियों को हिंदी भाषा के महत्व और हिंदी दिवस के बारे में संक्षिप्त जानकारी दी गई।

Academic Integrity

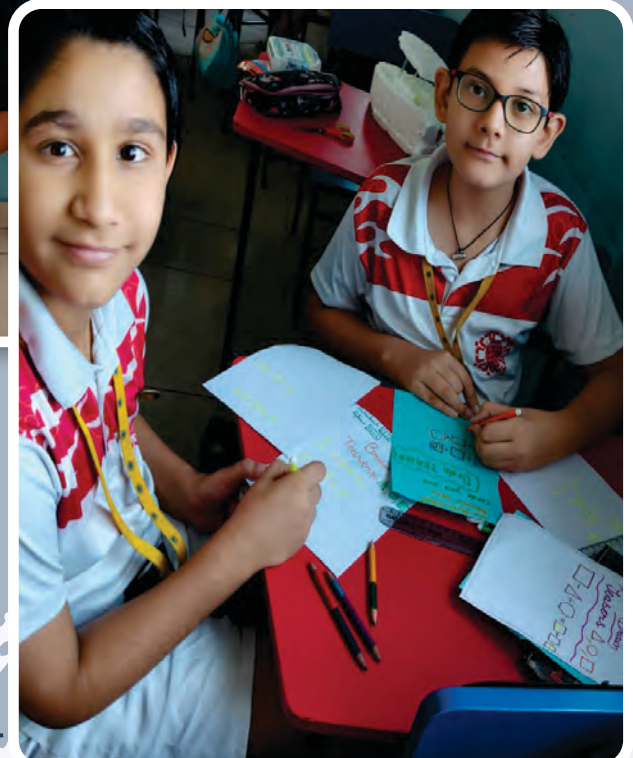

Term 1 of the session 2025-26 was a testament to our students' exemplary conceptual understanding and critical thinking, moving beyond rote memorization. In line with the International Curriculum, commitment to robust academic integrity, invigilator less Exam was successfully conducted as a pilot project to foster a culture of honesty and responsibility among students.

A series of skill-based Assessments were strategically implemented to strengthen metacognitive skills, empowering the students to reflect on their learning processes, nurturing self-regulated learners who are equipped to thrive in dynamic, real-world contexts. Alongside the rigorous internal assessments, the school implemented evaluation methods aligned with the IB and Cambridge Board patterns to ensure the students are well-prepared for global academic standards.

Create Your Own Brain Teaser

A Math activity was conducted for CPP 5 on 9th September 2025 based on application of BEDMAS (Brackets, Exponents, Division, Multiplication, Addition and Subtraction), the students used symbols and variables to create their own brain teasers. Together they presented and worked out the solutions further developing their interpersonal skills. It helped strengthen mathematical concepts like, use of variables, application of BEDMAS and quick mental calculations. It also enhanced their presentation and self-management skills making them confident.

Celebrating The Literary Genius

The Seniors marked 20th September 2025 honing their communicative and writing skills, where the Middle Wing students went in for storytelling, focusing on emotional depth and engaging narratives. The Students of grade IX and XI took to the 'Rapid Fire Writing Prompt'.

From Classroom to the Pool

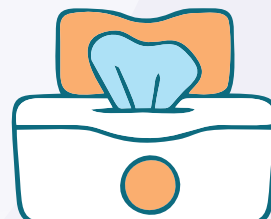

Science comes alive with floating boats!

A fun-filled learning experience of CPP 5 students that combined creativity with science was held on 13th September using simple materials. Students enthusiastically participated in a handmade boat floating activity where they designed creative boat models and tested them in a pool. This helped them to observe how shape, balance, and material affect floating. Students also understood scientific principles like buoyancy, water displacement, and stability.

Health & Hygiene

Grade 4 students actively participated in the Health and Hygiene activity held in the auditorium on 15th September 2025. The event included interactive sessions on personal hygiene and healthy habits. Students engaged through discussions promoting cleanliness and wellness. The activity aimed to raise awareness about importance of health and hygiene practices.

Integrating Disciplines

Tender petals of CPP 1 and 2 had a joyful and enriching experience during the 'Show and Tell' activity on the topic, "Types of Materials." It was a collaborative session with an integration of World Science with English, aimed at helping children understand different materials and their properties. The highlight of the session was a talk by the HOD, Ms. Jyotsna Ma'am, who engaged the students beautifully and deepened their understanding through real-life examples. Our young learners identified the objects based on material they were made of. It was a proud moment to see them express so well!

फलों के महत्व पर गतिविधि (हिंदी और विज्ञान विषय का समन्वय)

विद्यालय में "फलों के महत्व पर गतिविधि" का आयोजन किया गया। इस गतिविधि का उद्देश्य विद्यार्थियों को फलों के प्रति जागरूक बनाना, उनके पोषक तत्वों की जानकारी देना और हिंदी भाषा के माध्यम से अपनी अभिव्यक्ति क्षमता को विकसित करना था।

यह गतिविधि विज्ञान और हिंदी विषय का एक उत्कृष्ट समन्वय रही, जिसमें बच्चों ने व्यावहारिक, भाषिक और स्वास्थ्य संबंधी ज्ञान प्राप्त किया।

Engaging Science & Awareness Activities:

Students of CLSP 6 -8 actively participated in hands-on and thought-provoking activities.

From testing focus and coordination with the Buzz Wire Game to exploring Energy Concepts and Raising awareness through Young Voices Speak for a Healthy Tomorrow, learners developed critical thinking, creativity, and social consciousness.

CPP 3 Students learned how bones give shape and support to the human body when they visited the Biology Lab.

These initiatives nurtured curiosity and practical understanding, making learning both meaningful and enjoyable.

Literary Genius

A Journey Onward

Growing up is quite a ride,
Full of changes, deep inside.
Learning new things, everyday,
Finding my own unique way.

Tackling thorns and moving forward,
Stepping ahead, I learn how to not be a coward.
Lessons taught in every phase,
With them, creating memories that'll never erase.

Relishing in both, the ups and downs,
For there are teachings there too to be found.
There are no easy paths to reach to the crowns,
Connecting oneself to
principles that have no bound.

With youth comes changes inside-out,
Downpours a rain which makes you want to rout.
With strong will and mind one can cross,
Rise above the difficulties and become the boss.

Leading your way in controlled trajectory,
This is how I will achieve my own victory.
Over a journey that is brought
by the challenges of youth,
I'll grow maturity like a bamboo's uprising shoot.

Each mistake is a chance to grow,
Deeply understanding
complications with furrowed brow.
Though the path may twist and bend,
There's trust that this journey has a fantastic end.

Angel Agrawal
IBDP-Jr.

God's Gift

Grandparents, you are a blessing to us all,
A source of patience, love and wisdom to call.

Your love and guidance are a treasure to behold,
Your stories and memories will never grow old.

You bring joy and laughter to our lives,
The chance to be together, full of surprise.

Your strong arms to hold us, your laughter to hear,
The moments we share together are so very dear.

We admire and appreciate all that you do,
Your strength, courage,
your life is something we all view.

Your tireless devotion to us is
something we can't repay,
But we thank you from the bottom of our hearts
each and every day.

Grandparents, we love you now and always will,
Your love is unconditional and ever so real.

So thankful for your guidance,
your love and your grace,
We couldn't have asked for
better grandparents in this place.

Riya Yenendra
IBDP-Jr.

Literary Genius

A Replica

My benevolence borrowed from your hands,
My bravery built from your heart's plans,
A mini version, some would claim,
But I'm a spark from the same flame.

A blueprint drawn in love not ink,
You made me more than I could think,
I would think I'd be so different,
But here I am a sketch of you.

You gave me more than eyes and hair,
You passed down the courage in the air,
A little replica, just begun,
The next chapter to the life you have run

Virika Sharma
IBDP-Jr.

Poetry

Curtains swayed like slow oceans of light,
while the hum of machines cooled our summers.

Shadows of games stitched the floor
in bright colors,
castles of blankets collapsed into laughter.

The world was small, yet endlessly wide,
songs caged in pixels felt boundless, eternal.

Now the silence leans closer, softer,
and memory burns where the ice once melted.

Turvi Dhaka
IBDP-Jr.

World within the word "Mother"

What is your real calibre?
They define "mother" as the strongest figure—
But you, are even more than that title,
More than the backbone holding up the home,
More than the hands that
heal and the arms that shelter.
You are a multitude, a mosaic of roles

The teacher who sets discipline
A fighter who stands in all, strong and unwavering.
Your true power lies not just in your sacrifice,
But in your spirit—unyielding,
Your softness grows fragile saplings into trees.

Even then, you are not defined by your care alone,
You are not just a mother.
You are a woman who continues to become—
In every season, in every stretch of life.

The world remembers the warmth of your hands,
But may it also remember your ideas, your
laughter, your presence.
Children grow up seeing
not just the love mothers give—
But the person who gave it,
Whole and bright.

Because being a mother is not
the end of who you are.
It is another way you shine.

REFLECTION Youth Parliament

Taking part in my first Youth Parliament at the Vidhan Sabha was one of the most memorable experiences of my life. From the moment I entered the venue, I felt an overwhelming sense of pride. Only a few are chosen to get this opportunity, and being one of them made me feel truly special. The atmosphere itself gave me a rush of excitement and responsibility.

The most fulfilling part of the event was debating political issues. Even though I did not win, the chance to stand up and present my thoughts with conviction was invaluable. I realized that it wasn't only about winning; it was about having the courage to speak, to express myself, and to learn from others. That day, I discovered a new confidence in myself.

One of the highlights was the applause I received after my speech. Hearing the claps and seeing people appreciate my words filled me with a sense of achievement that no trophy could match. It showed me that my voice mattered and that people were willing to listen.

This experience has inspired me to keep improving and to participate in more such events. I now know that confidence, preparation, and the willingness to speak up are the real victories.

The Youth Parliament was not just a competition for me, but a milestone that I will always cherish.

Ishita Bansal
IBDP-Jr.

Those Days Love Yourself

You may encounter those days—
days when sadness comes without reason,
when your body feels unbearably heavy,
and it seems the whole world, except you,
is rushing forward, fierce and busy.

Your footsteps stumble out of rhythm;
you feel already too late.
The world appears unkind,
your heart, crumpled, wordless—
click-clacking speed bumps scattered everywhere.

Inside me lingers still
that awkward, uncertain part.
Why, though? I ran, I tried so hard.
Oh—why must this happen to me?

Will anything change?
Perhaps not...
and yet, this day will end.

When the second and minute hands meet,
the world pauses, holding its breath.
And a time will come—
a time when joy returns.

Like snow settling softly on the earth,
let us breathe, as if for the first time.
Turn it all around.
When everything resets,
you will be happy again.

Our lives are long;
trust yourself, even in the maze.
For when winter passes,
spring always arrives.

Literary Genius

Social Media A Curse or a Catalyst?

It connects us with family and friends
across the world — a message,
a call, or a wish can make distances disappear.

During the pandemic,
it was our lifeline to loved ones.

It's also a hub of learning and creativity.
From quick lessons to skill-building videos,
students today can learn,
create, and grow anytime, anywhere.

Beyond that, social media gives a voice
to the voiceless.

It spreads awareness about
mental health, the environment,
and social issues — inspiring real change.

Yes, problems like addiction or fake news exist.
But blaming social media is like blaming
a knife for a cut.

The problem lies in misuse,
not the tool itself.

With awareness and balance,
we can make social media a force for good.

So, to say it does more harm than good is unfair —
because in the end, it's not social media that
shapes us, it's we who shape it.

IBDP-Jr.

Wealth within the whispers of want

What is the state of life in need,
Where hunger lingers, hopes recede?
Where walls are thin and nights grow cold,
And dreams are bought, but never sold?

Yet does one find in what they own,
A spark of joy, a seed once sown?

A laugh that rings through empty halls,
A love that stands when fortune falls?

For wealth is more than coins in hand,
It's sunlight warm on weary land,
A meal made full by love's embrace,
A heart unbowed by fortune's chase.

The one who comprehends true wealth knows,
Money is not about the golden fancy shows.
Its voices raised in song and cheer,
Its kindness given, pure and clear.

Though shadows press, though times are lean,
Still light is found in what is seen.

Not all who lack are lost in sorrow.

Some build their joy from each tomorrow.

Should AI Replace Human Jobs?

Technology has always shaped the way humans live and work—from the invention of the wheel to the industrial revolution, each advancement has changed society. However, today we stand at a turning point with artificial intelligence (AI), which goes beyond performing physical tasks to thinking, analysing, and even creating like humans.

Supporters of AI view it as a natural step in progress. They argue that AI works faster, doesn't tire, and can handle vast amounts of data. In healthcare, it assists doctors in diagnosing diseases earlier; in industries, it increases efficiency; and in creative fields such as writing, music, and art, it has started competing with human imagination. According to proponents, this transformation will free people from monotonous tasks and allow them to focus on innovation and meaningful work.

However, critics raise serious concerns about job loss, economic inequality, and ethics. As machines take over many roles, millions of workers could face unemployment, and not everyone will have the skills to adapt. This could widen the gap between the rich, who own technology, and the poor, who depend on traditional jobs. Furthermore, delegating decisions about health, finance, or justice to algorithms poses moral challenges, as AI systems can be biased or misused.

Beyond economics and ethics lies the question of identity—if AI can create art or music, what will be the value of human creativity?

In conclusion, AI is neither purely a threat nor a miracle. It is a powerful tool that must be shaped wisely. The goal is not to stop progress but to ensure that machines serve humanity, not replace it.

My Creators

I held your finger in a fist,
You held my hand during hardships.
Memories which speak more than the moment
itself,
I relapse those in mind to bring same warm and
comfort again.

Beliefs which were fueled by others'
doubt and became morals,
Your words always supporting me
like oars to a boat.

And when we are away the only thing
that grows is distance,
This is how emotionally strong
our minds have been.

Cheering my achievements, shoulder to my
sorrows and putting a little more to me every day,
Like a clay artist who shapes his art
with time and care.

I am glad to share this bond with you,
Not like others but it's unique when
I think more through.

A knock on the door or a ring on the phone,
It is all the same when I hear your voice,
Calling my sweet name.

Angel Agrawal

Love Yourself

You may experience those days
Those days when you're sad for no reason
Those days when your body feels heavy
And it looks like everyone else except you is busy & fierce
Your footsteps don't fall the way you want; it feels like you're
already too late
And the whole world is just mean,
Those days when your heart feels crumpled and you can't find
words
Yeah, here and there are click-clacking speed bumps.
Inside of me, there's still.
That awkward part of me, but
Why the hell? I ran, tried so hard
Oh, but why does this happen to me?
But will something be different?
It won't be something like that.
But still, this day will end.
When the second and minute hands overlap
The world holds its breath for a little while
But the time will come when you're going to be happy.
Like the snow that quietly settles down
Let's breathe, like it's the first time
Turn this all around.
When everything resets,
and you're gonna be happy again.
Our lives are long; trust yourself when in a maze
When winter passes, spring always comes
Maybe I fell in order to take the place
of those countless stars
The target of thousands of bright arrows is me alone, ayy
Knowing that it's gonna be alright
On the path to loving myself (No way)
It's what I need the most
Uh, I'm walking for myself (Ayy)
It's an action needed for me
My attitude towards myself
That's the happiness I need for myself
I'll show you what I got
I'm not afraid because it's me
The me of yesterday
The me of today
The me of tomorrow
I'm learning how to love myself
With no exceptions, it's all me
I should love myself.
I'm learning how to love myself.
I'll answer with my breath, my path.
I am still learning how to love myself.
But I know that I should love myself.
With no exceptions, because it's all me

IBDPJr

Reflection

My first Youth Parliament

Experience at Vidhan Sabha

Stepping into the Vidhan Sabha for the first time wasn't just about entering a historic building, it felt like walking into the heartbeat of democracy. The air was thick with purpose, tradition and the quiet echoes of decisions that shaped the country and its people. I wasn't just a visitor that day, I was a participant, a voice among many, ready to be heard.

When I was first selected to attend the Youth Parliament, it was a mix of excitement and nervousness. However, the moment I sat in that seat, mic in front of me, facing a sea of young passionate minds just like mine, something clicked.

Speaking in the Vidhan Sabha felt surreal. I felt as though my words weren't just sentences, I was sharing thoughts, raising questions and challenging norms. I realized the power in my voice but also the weight that comes with having the freedom of expression. Every argument, every interjection, every applause or disagreement was a reminder that democracy isn't abstract, it's alive, messy and beautiful.

Beyond the speeches and formalities, this experience taught me something more profound: that change doesn't start in headlines or history books, it begins with conversations – raw, respectful and relentless. It begins when we the youth stop waiting to be invited and start making space.

I walked out of Vidhan Sabha that day not only feeling proud but also empowered. Because for the first time I didn't just witness democracy, I experienced it and I contributed to it.

Aanya Gupta
IGCSE JR

Literary Fest

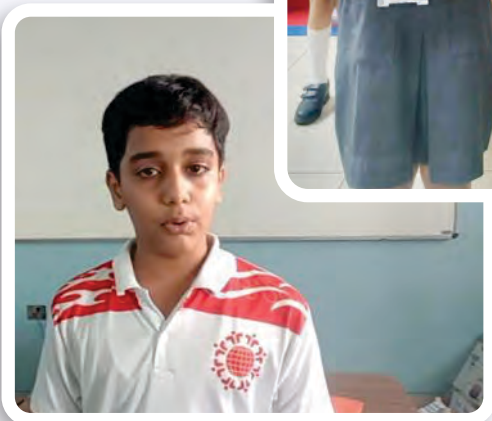

Students participated in a Story Session. During the activity, they enthusiastically shared about their family members. The session helped the children to become confident, improve communication skills, and ability to express themselves in front of others.

Learners of CPP3 participated enthusiastically and showcased originality in their props and presentations. Overall it was an engaging activity to nurture the young storytellers. CPP 4 & 5 also participated in a storytelling activity where students creatively wove a story titled 'A Strange Dream' using their vibrant imagination.

Through story telling activity class CLSP 6, showcased creativity and imagination. The session encouraged self-expression, public speaking, and teamwork, developing essential communication skills.

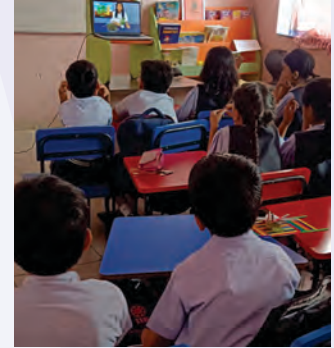

Students of Class CLSP 7 developed key skills like self-expression, public speaking, and teamwork.

Students of CLSP 8 narrated engaging stories with enthusiasm and confidence, demonstrating their imagination and public speaking abilities. The activity promoted creative expression and enhanced communication skills among students. Overall, it was an entertaining and enriching experience.

Learning Beyond Flowers

CPP 4 students watched videos on non-flowering plants and pollination. They learned that ferns and mosses reproduce through spores, while cone-bearing plants like pines use cones and wind for pollination. The session helped them understand unique ways plants reproduce without flowers.

Toy Shop Activity

CPP 2 kids enjoyed a fun Toy Shop Activity. Through this activity, they learned how to use money, make payments, and give change. Children took turns becoming shopkeepers and customers, which made the learning experience both exciting and practical. It was a wonderful opportunity for them to explore real-life skills in a playful way.

Young Voices Speak for a Healthier Tomorrow

CLSP 7 Science students conducted an oral presentation to spread awareness against smoking, drug abuse, drinking, unhealthy lifestyle, diabetes, and heart attack. Students were divided into groups, each focusing on one topic. They highlighted causes, harmful effects, and preventive measures through facts, examples, and charts.

The session emphasized healthy habits such as regular exercise, balanced diet, and avoiding harmful substances. The audience gained valuable insights into leading a healthier lifestyle.

The activity was informative and impactful, successfully encouraging students to adopt and promote healthy living.

Math CAS Activity

Students of class CPP 3J made beautiful and colourful table books and bookmarks of tables 11 to 15. These were gifted to the Government School students to help and motivate them to learn times tables which are a key part of developing strong numeracy and mathematical fluency that lasts a lifetime.

The teachers and students of government school appreciated the efforts and creativity of our little ones and thanked them a lot.

Vocabulary Building Activity

A fun Vocabulary Building activity was conducted in CPP 1-5 on 25th September. Children picked a word from the mystery box, shared its meaning, and used it in a sentence. and wrote in a sheet .

It was an engaging and enjoyable way to enhance their vocabulary and speaking skills!

Students from CPP 4 participated in a Vocabulary Fun Activity, where they drew caricatures of themselves and introduced themselves using new and interesting words. This creative exercise helped students practice vocabulary in a fun and engaging way, promoting self-expression and language development

Exploring Energy Concepts

CLSP 6 students engaged in a hands-on experiment in the physics lab on 18 September, learning about energy concepts through practical application. By conducting experiments on motion and energy, students gained a deeper understanding of scientific principles.

Students designed and executed experiments to demonstrate kinetic and potential energy. Hands-on learning made complex concepts accessible and enjoyable. The activity fostered curiosity and creativity. Students demonstrated improved understanding and enthusiasm for science, showcasing the effectiveness of experiential learning.

Magnetic Board Games Activity

Students of CPP 4 showcased their creativity by designing magnetic board games like Magnetic Maze, Rocket to Mars, and Park the Plane using chart papers, corrugated sheets, colours, and small figures. The activity allowed them to apply the concept of magnetism in a fun, hands-on way, with magnetic pieces that were easy to play and carry. It helped build teamwork, imagination, problem-solving, and focus. Students from CPP 1, 2, and 3 visited the Magnetic Board Game Arena, creating an interactive, peer-learning experience. The project demonstrated how science can be applied creatively, combining education with enjoyment.

Session on Menstrual Health & Hygiene

India International School organized an awareness session on Menstrual Hygiene for the girls of Grades V and VI, along with their mothers, on 19th September 2025 in the school auditorium. The session was conducted by Ms. Nitya Chaudhary, CSR Executive, Unicharm India.

The resource person sensitively addressed the physical and psychological changes that young girls experience as they step into puberty. She also emphasized the importance of maintaining proper menstrual hygiene to ensure good health and well-being.

A significant aspect of the session was the encouragement of open and healthy communication between mothers and daughters. Ms. Chaudhary highlighted that such dialogue not only help young girls manage stress and anxiety during this transitional stage but also strengthens the mother–daughter bond.

The session was highly informative, interactive, and reassuring, leaving both students and mothers better equipped to approach this natural phase of life with confidence and positivity.

Cyber Security Session at IIS

A Cyber Security Session was conducted at IIS on 25th September 2025 for the students. The session aimed at spreading awareness about the growing challenges in the digital space and instilling mindfulness regarding online safety. There were two distinguished speakers. Mr. Raghuveer Singh, Additional SP and Mr. Yogesh Rao, Cyber Security Consultant and Eminent Faculty at CDTI, Jaipur.

Mr. Raghuveer Singh shared how he and his team have fought the battles against heinous crimes in the society such as female foeticide.

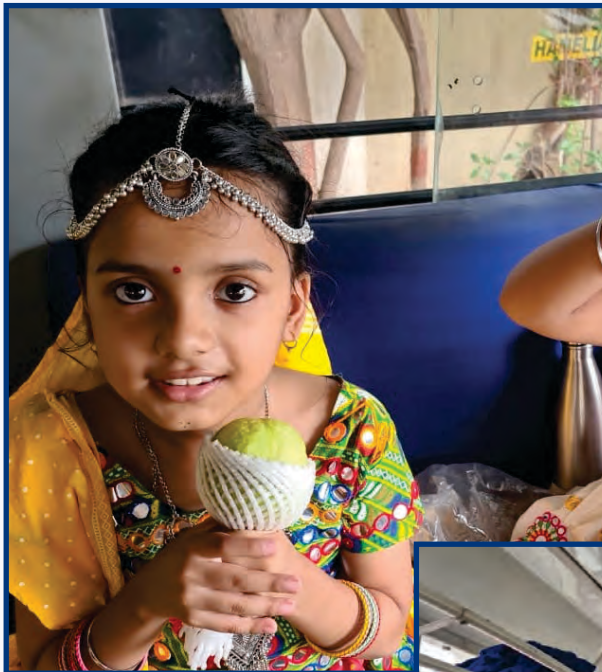

Mr. Yogesh Rao explained Cyber Security measures through various real-life scenarios and simple do's and don't's. The key points included: not giving in to temptations or fraud links, seeking help either from family, friends, or teachers, using the helpline number 1930, keeping strong passwords, and being aware of what one shares with others as well as their digital footprint.

The session was very interactive, and students had much to gain from it as it instilled mindfulness regarding Cyber Security and empowered students with practical knowledge to safeguard themselves in the digital world.

Healthy Snack Healthy IISian

A wonderful surprise awaited the IISians as they boarded the bus before the Dusshera break. The seasonal fruit, nice juicy guavas was their treat before they bid adieu to September.

IIS Alumni (First Meet) Reconnect

On 11th September, 2025, our school formally announced the registration of its Alumni Association – IIS Alumni Reconnect, marking an important milestone in strengthening the bond between the school and its former students. The announcement was made by the Principal in presence of the President, Secretary, Treasurer and the other Executive Council members of the School Alumni Association.

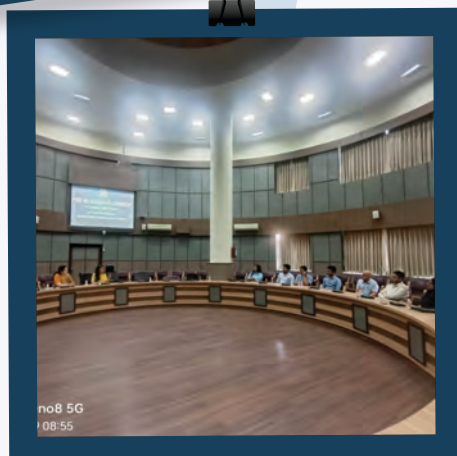

The establishment of this Alumni Association will serve as a platform to foster connections between alumni and the school, as well as to build meaningful interactions between alumni and current students. Through this council, the alumni will not only remain connected to their alma mater but also extend mentorship, guidance, and opportunities to the present student community.

Moving ahead, the association aims to create a network that encourages knowledge sharing, career support, and collaborative initiatives, thereby ensuring that the legacy of the school continues to grow stronger with every passing year.

IIS Alumni

(Second Meet) Reconnect

The 2nd Alumni Meet was successfully held on 29th September 2025, bringing together former students to reconnect and celebrate shared memories. A major highlight of the event was the formation of the new working committee, dedicated to strengthening alumni engagement and supporting institutional growth. The newly formed committee assured to take forward Dr. Ashok Gupta Sir's vision, whose exemplary leadership continues to guide the alumni network. The new committee pledged to carry forward his legacy with commitment and unity.

New at IIS !!

India International School proudly introduced its CHESS ACADEMY on 16th September 2025 for students of Grade 3 to 11. The Chess academy has been initiated at IIS with the objective of nurturing logical thinking, concentration, and strategic skills among students through the game of chess.

The initiative has been warmly welcomed by the school community, as chess is known to enhance problem-solving abilities and foster cognitive development. Under the guidance of a trained instructor, the academy aims to provide structured training sessions, competitive opportunities and avenues to develop analytical thinking in students. This step reaffirms the school's commitment to holistic education by promoting both academic excellence and co-curricular growth.

Anecdote Book Fair

September, considered as the month for literacy, calls for the Book Fair. The Book Fair scheduled on 26th and 27th September 2025, was a grand success. The fair catered to all genres and for every age group. Students were taken class wise on 26th to visit the display, explore the books and note down the names. The next day being the PTM, students purchased the books of their choice. This fair gave momentum to the students' passion to reading.

The Regal Showcasing of Students' Exhibits at IIS

The magnanimous showcasing of the first term teaching and learning at IIS took place during the PTM on 27th September, 2025 wherein, every department exhibited and flaunted the work of their students. The panoply of exhibits gave a challenging task to the mentors to identify the best since all were exemplary.

The exhibits were showcased in the Amphitheatre, Lounge, Whispering Hub, Corridors and classrooms. Showcasing was not just enough, the versatile IISians also explained the projects to the amazement of the parents. The exhibits of the Fine Art students out beat any established artist.

The languages showcased the literary genius of the students through a train with different bogies for different languages with the projects displayed at the Multilingual Junction. Life Skills occupied a justified chunk of the amphitheatre, the Commerce, Math, Social Media, all Sciences were one better than the other. The different Clubs - each held a post with their club heads briefing parents about the progress of each club. The new and latest highlight was the 'Interact Club, a maiden venture of Jaipur Rotary Vidyasthali. With Diwali round the corner, the Interact Club students made Diyas, Tea, Light, water, Bubble and Jar candles that were sold. The amount collected will be given in charity as way of contributing towards the society.

Last but not the least, the Sports department with their elaborate exhibition of trophies and gold medals got the maximum appreciation of the parents who were happy with the changes that had come about with the presence of the sports academy. All activities covered during the first term were shown on the LED.

The core elements of IB – the T.O.K., E.E. and C.A.S. exhibition, were informative as well as value-based, the toddlers stole the show while explaining their project to parents in their innocent yet confident voice.

The Book Fair that showcased books of all genres catering to all age groups was another attention gripper, where reading lovers flocked in large numbers to buy books written by their favourite author. All in all, parents left satiated with all praises and a firm confidence in the institution.

FUNDRAISING ACTIVITY OF THE Interact Club

The Interact Club of India International School organized its very first fundraising activity on 27th September 2025 during the Parent-Teacher Meeting. Our enthusiastic student members created a variety of candles - Plain Diyas, Coloured Diyas, Hand-painted Diyas, Tea-light Candles, Water Candles, Bubble Candles and Jar candles, which were put up for sale.

This initiative not only gave students hands-on learning about teamwork, creativity and responsibility but also instilled in them the true spirit of "Service Above Self."

The funds raised will be used to bring smiles to NGO children by distributing Diwali gifts and celebrating the festival of lights with them.

A proud beginning for our Interact Club, marking the start of many meaningful community service projects ahead!

The Most Cherished Garba

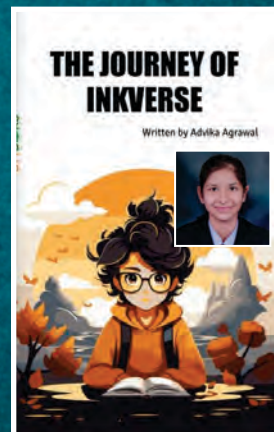

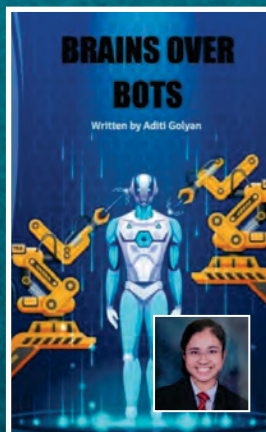

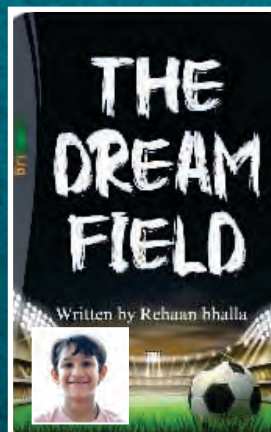

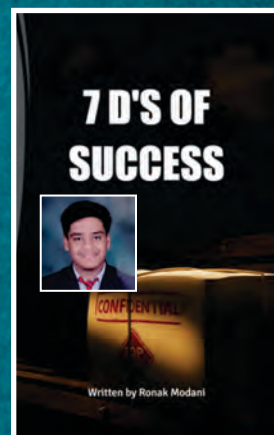

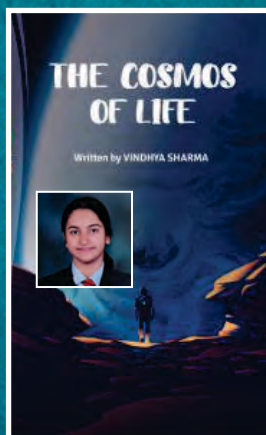

The junior petals participated in the vibrant and energetic Garba Celebration, cherishing the spirit of Navratri. The event was held on 29th September in the school amphitheatre where students gathered dressed in traditional attire, eager to showcase their Garba skills. The students danced to the rhythm of traditional Garba music, in sync with their peers. The atmosphere was filled with laughter and mirth. This activity not only provided a platform to showcase their dancing skills but also promoted teamwork, coordination, and cultural awareness. It was an engaging, fun filled activity that inculcated a deep appreciation in students of the rich cultural heritage of India.

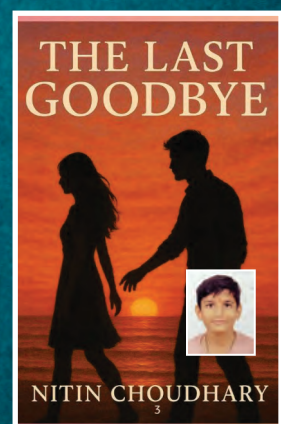

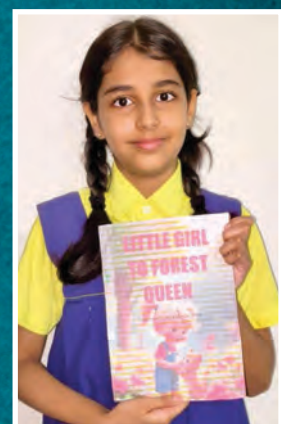

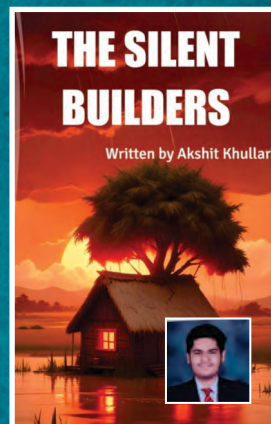

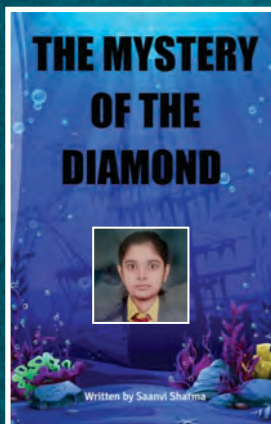

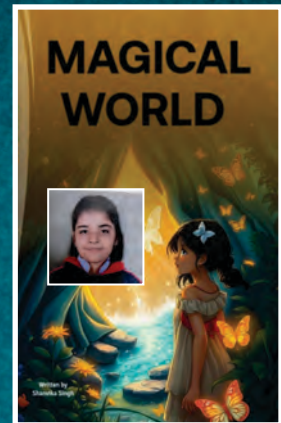

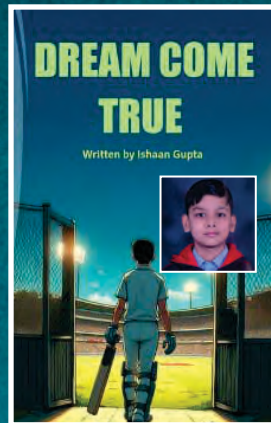

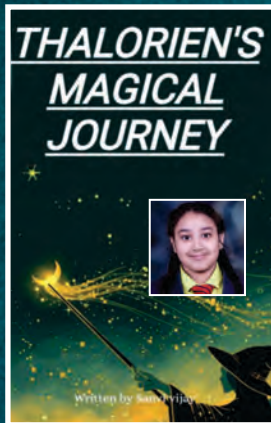

Early Access Program of the National Young Authors' Fair (NYAF)

This year our School has been handpicked for the Early Access Program of National Young Authors' Fair – a rare privilege that gives the students a head start before the National launch. This unleashed the students to begin writing, publishing and shining on the National stage ahead of thousands of others across the country. 56 registered and 29 have become author from writers on Amazon.

BriBooks

WHY **ib** HAS AN EDGE?

IB nurtures **inquirers**, seekers of truth,
With **knowledge** of the world, in all they pursue.
As thoughtful **thinkers**, with judgment sound,
And **communicators**, where respect is found.

With **principled lives**, in dignity they stand,
With **open minds**, they embrace each land.
With **caring hearts**, compassion they show,
Balanced in spirit, where virtues grow.

As **reflective souls**, they learn each day,
As **risk-takers**, they lead the way.
