Additional Clarification for Parents

AI & Robotics Skill Lab Programme (Classes III to IX) | Session 2026–27

**Dear Parents,
Greetings!**

We sincerely thank you for your encouraging response to the introduction of the **AI & Robotics Skill Lab Programme**. We appreciate your interest and would like to address some of the common queries received from parents.

Please note the following:

- The **AI & Robotics Skill Lab Programme** is a mandatory part of the school's curriculum for students of **Classes III to IX**. This initiative has been introduced by the school to equip students with future-ready skills in accordance with the vision of **NEP 2020 and NCF-SE 2023**.
- The programme follows the **STEM (Science, Technology, Engineering and Mathematics)** approach and promotes experiential, hands-on learning.
- Students will attend **one practical AI & Robotics lab session every week**, where they will learn coding, robotics and Artificial Intelligence through activity-based learning.
- Students will design and develop innovative projects, enhancing their computational thinking, creativity, critical thinking, collaboration and problem-solving skills.
- The programme includes **periodic assessments, practical evaluations and end-term examinations**, and forms an integral part of the learning process.
- A **practical fee of ₹600 per quarter (₹1,800 for the academic session)** will be charged towards the conduct of practical classes, use of robotics kits, laboratory equipment and digital learning resources.
- The prescribed **AI & Robotics workbook will be provided at a cost of ₹400**, which will be charged separately.

We firmly believe that early exposure to Artificial Intelligence, Robotics and STEM education will empower our students with the knowledge, skills and confidence required to thrive in an increasingly technology-driven world.

We appreciate your continued support and partnership in providing our children with meaningful, future-focused learning opportunities.

For any further clarification, please feel free to contact the school office.

Warm regards

**Dr. Anju Jaideep
Principal**
